

Learning outcome 4

Task 41. Insert all data from Country_codes.csv file into the most convenient container for quick search by country code. Allow the user to enter the country code, and you then display the full country name. The beginning of Country_codes.csv file:

Country Name	Country Code
Afghanistan	AFG
Albania	ALB
Algeria	DZA
American Samoa	ASM
Andorra	ADO
Angola	AGO
Antigua and Barbuda	ATG
Argentina	ARG
Armenia	ARM
...	...

Task 42. The Country_codes.csv file contains various characters. Using the most appropriate container, print how many characters there are (other than enter), for example:

```
contains 98
' contains 1
( contains 3
) contains 3
- contains 2
. contains 31
; contains 215
A contains 70
B contains 56
...
```
